

Distributed Flea Market

Buyers:

Flea Market games for sale will be on the thin tables along the edges of the main ballroom(s) all weekend. **Anything under the tables is personal storage.** Games will be clearly marked with price tags, and the seller will have their contact information clearly visible near their pile of games. They may even be playing at a nearby table. If the seller is out of pocket for a while, simply arrange another time to make your transaction. Be kind, be honest, be yourself.

Sellers:

Read the Buyers paragraph.

At first, please don't spread out to more than about half of one table so we can accommodate a lot of sellers. Go vertical. Bring your own shelves to stack on top of the tables if you wish.

If we have fewer sellers by Friday night, feel free to expand your footprint. But if we end up with more people wanting to sell and not enough space, we may need you to trim it back. Check the back of your badge to see if any Salons are closing early.
